

## FUNKI PHASE DRY

Phase feeding of pigs...

- Phase feeding of pigs
- Different feed mixes
- Save feed costs
- Optimal use of feeding system
- Simple and reliable

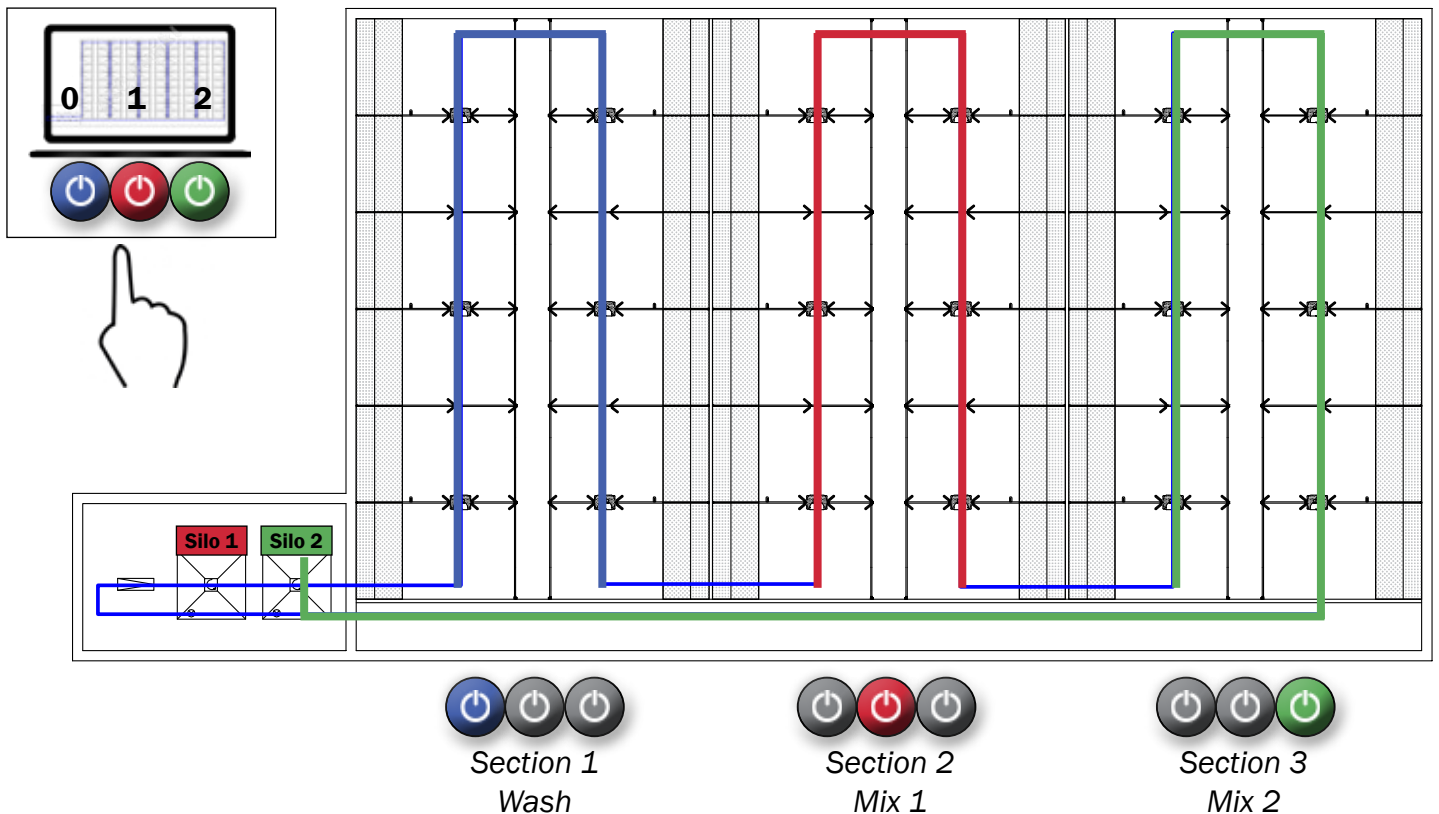

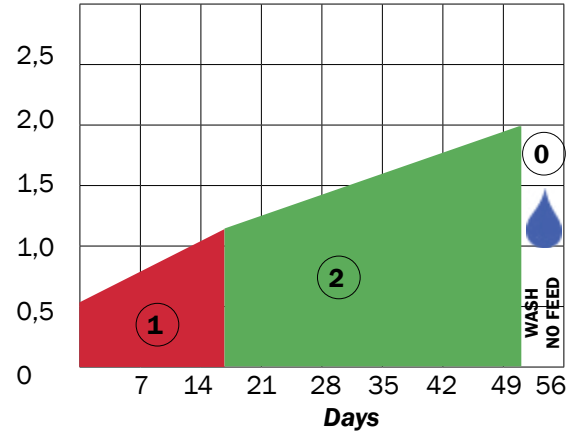

# | FUNKI PHASE DRY |

Phase feeding of weaners and finishers...

FUNKI PHASE DRY is perfect for phase feeding of weaners and finishers. To optimize the pigs' performance it will be an advantage to feed them with more different feed mixes. It is easy to do with our FUNKI PHASE DRY feeding concept.

The FUNKI PHASE DRY system is controlled by a computer, where you can decide what feed mix should be given to pigs. The FUNKI PHASE DRY system is operated by means of the pneumatic cylinder with air pressure - MASTER VALVE DRY.

Amount of feed, kg

Subject to changes in materials and design is reserved.
