

Electric tank cleaner

Aquila tank cleaner

Tank cleaner - fitting

ACO Funki

Electric tank cleaner

- Cleans inner surfaces in tanks and silos
- Reduced water consumption, high pressure, optimum cleaning power
- Complete, rotating coverage of all inner surfaces
- Small and slim design ensures easy penetration through all tank openings
- Lowvoltage connection
- Made in stainless steel
- Approved for use with foodstuffs

Technical specifications

Recommended pressure	220 bar
Max. pressure	250 bar
Max. water consumption	21 litres/min
Max. water temperature	90° deg.C
Weight	3,2 kg
Max. rotating speed	14 RPM
Complete cleaning cycle time	2 min
Electric motor	12V
Power supply	230v-50Hz/12v cc
Wire length	10 m
Sealing	Only silicone
